The essentials, ready for an IP-PBX

Designed for seamless compatibility with any analog PBX, the FIBERME A200 suits every office, from small businesses to large corporate settings. Its intuitive, clearly labeled buttons make it easy for anyone to use, and its durable materials withstand daily office wear.

Connected to an IP-PBX through an FXS gateway, the A200 taps into modern telephony features, letting businesses upgrade their communication without overhauling their existing analog phones.

With an IP-PBX via an FXS gateway

- ✓ Call forwarding
- ✓ Voicemail
- ✓ Conference calling
- ✓ Call recording
- ✓ Automated attendant

Works with any analog PBX

Seamless compatibility for offices of every size.
