Label Applicator AP Series

Built-in Mech-Sensor

Precision technology creates a lineup of versatile Label Applicators that meet a wide range of label and sticker needs!

AP65 Series

A Mech-Sensor combines with a sensor that automatically detects labels of different strokes to eliminate the need for manual alignment when you load labels.

APF Series

A new slidable Mech-Sensor provides support for round, oval, and other non-rectangular labels.

Label Applicator AP Series

AP65 Series

AP65-30

AP65-60

AP65-100

- For pre-printed general roll labels.
No special (punched or slit) labels or separators required.
- Supports use of label sizes from 20 x 20mm up to 100 x 60mm.

▲Mech-Sensor

3mm Pitch
3mm Pitch Recommended

The Mech-Sensor
catches the label and
automatically detects
the stroke for smooth
feeding.

APF Series

APF-30

APF-60

APF-100

- For eye-catching labels of various shapes that add to the overall appeal of an item.
- Supports use of the same label sizes as the AP65 Series.
In addition, the slidable Mech-Sensor provides support
for non-rectangular shapes as well.

▲Slidable Mech-Sensor

Sliding the sensor
left or right until it is
in the center of the
label.
